STRONG RECOMMENDATION

Submitting entries is a difficult task with many swimmers and many events to consider as well as the number of events that swimmers may be entered.

Consequently, it is a good idea if a second person reviews the entries once they have been completed before you submit them to Darryl.

You want to make sure that you have not omitted anybody from the events that you want them entered.

PART 4 - ELIGIBILITY

REGISTRATION – Please refer to Page Three & Four (Declaration Sheet)

AGE ELIGIBILITY

Please refer to (Entry Regulations)

TRANSFERS

Any student who has transferred into your school in the past twelve months is not eligible to compete in the 2020 Swimming Championships unless the student's transfer has been approved by the TDCAA Transfer Chairperson. It is very important that you check for any students who have transferred into your school in the second semester (2018 – 2019) or the first semester of the current year (2019 - 2020).

Please Note: A student who transfers into your school in second semester of the current year (2019 - 2020) is automatically ineligible for any winter sports even if their transfer is approved . (TDCAA Constitution)

FIVE YEAR ELIGIBILITY

Students are eligible to compete for no more than five consecutive years from the date of entry into Grade 9. There is no appeal to this rule. Therefore a student entering Grade 9 prior to September 2016 would be ineligible.

PART 5 SCORING

Scoring for each event at the TDCAA Championship will be:

First - 10 Points	Second – 9 Points
Third - 8 Points	Fourth – 7 Points
Fifth - 6 Points	Sixth – 5 Points
Seventh - 4 Points	Eighth – 3 Points
Ninth - 2 Points	Tenth – 1 Point

If there are two relay teams, only one team may score points

RELAY SCORING RULE

Schools may enter two teams in all relay events but only one team may score points for its school. In those instances where a school entering two teams in the same relay event has both teams place in the top ten then the following will apply:

- 1.** Medals and Ribbons will be awarded as per finish to all relay teams. This applies to a school's second relay team as well.
- 2.** Points will be awarded as per finish except in the case of a school's second relay team which will not be awarded any points.
- 3.** Those schools finishing in the top ten but behind a team ineligible for points, will be moved up accordingly in the standings but only for the purpose of awarding team points. This change in scoring will not apply to any team that does not achieve a top ten finish in said event.

For Example:

School one enters two relay teams in the IM Relay Race. There are a total of twelve teams in the event. School one's relay teams finish first and fifth accordingly. The first place team will receive gold medals while the fifth place team will receive fifth place ribbons. Teams finishing in the sixth through tenth positions will receive the appropriate

ribbons. However, when it comes to the awarding of team points, since the fifth place team is ineligible for points, teams in the sixth through tenth positions will each be moved up one place and receive team points according to the move up of one position.

Should the implication of this change create huge problems then we would revert back to the old scoring rule which had no team moving up. We would then closely monitor the results in the relay events as to their implications and then look at introducing the change in the immediate future.

PART SIX - TIME STANDARDS FOR OFSAA

Time Standards:

(a) Time standards shall be used as a requirement for entry to the OFSAA meet for those swimmers who do **not** win their event at the Association; official splits will be recognized as official entry times.

(b) The time standards for the **High School and Open Divisions** shall be based on the average of the 24th place from the two previous OFSAA championships in the event.

(c) There shall be no time standards for the Para-swimming Division.
